| Airpol PRT90 screw compressor with dryer and frequency converter |  |
|--|--|
| Max overpressure [MPa]   | 1.3  |
| Variable capacity:   |  |
| Capacity min-max [m3/h] [ 1,3 MPa ]                              | 206 - 685  |
| Dimension (LxWxH) [mm]   | 2550 x 1485 x 2130   |
| Compressed air connection  | G 2  |
| Weight [kg]  | 3000   |
| Ambient temperature [°C]   | +5 ÷ +40   |
| Cooling air demand [m³/h]  | 13800  |
| Compressed air temperature on the outlet [°C]                    | approx.10 degrees above ambient temperature  |
| Sound level L [dB(A)]  | 83   |
| Power transmission system  | direct drive   |
| Nominal motor power [kW]   | 90   |
| Nominal fan motor power [kW]                                     | 4,15   |
| Motor energy efficiency class                                    | IE3  |
| Motor IP Code  | IP55   |
| Feed voltage [V/ph/Hz]   | 400/3/50   |
| Power feed cable [mm2 ]  | 4x95+PE  |
| Protection fuse [A]  | 200  |
| Dryer pressure dew point [°C]                                    | +3   |
| Quality class in accordance with ISO 8573.1                      | 2.4.2  |
| Built-in refrigeration dryer with compressed air filters         | The integrated compressed air treatment system removes moisture to the required dew point of +3°C and provides the residual oil content in the compressed air. Increased air quality class (2.4.2 according to ISO 8573.1) means, among others: longer life of pneumatic tools, limiting of compressed air network corrosion, minimizing the risk of the end product damage, e.g. paint coating. |

Frequency converter

Microprocessor control

## Airpol Compressors Ltd.

Provides smooth speed control in the range from 20% to 100% (depending on the pressure set on the controller). Main benefits for the user: adjustment of the compressor capacity to the actual compressed air demand; reduction of the compressor pressure hysteresis, and thus reduction of pressure variations in the pneumatic network (electric motor rotations is regulated so that to keep the network pressure value on the constant, set level); minimization of mechanical wear and extending of the components working life; energy savings.

Clear display, information LEDs and straightforward keyboard provide easy and guick working

Clear display, information LEDs and straightforward keyboard provide easy and quick working parameters configuration, define compressor operating status, as well as compressor operating mode selection.
